

This is what was in our 2016 flower share. It is a guideline only, we are growing more and different varieties each year. Shares are seasonal. So early May and late October shares have fewer flowers, while July-September shares have more.

Each week we provide a minimum of 8 florists bunches. Bunches are typically 10 stems, but smaller fillers have more, and large flowers (delphinium, lilies) have fewer.

We also offer flowers for sale 'a la carte' in our wholesale shop to supplement shares.

	Week 1	Week 2	Week 3	Week 4
